Ref: Petition for Rule Making - RM-11829

I have read the complete petition filed by Mr. Gary Hampton. I want to go on record with the FCC my opposition to this petition.

There is absolutely no need for the FCC to create a new "Tyro" license class and authorizing 99 FM voice radio channels in the currently existing, amateur radio, 70cm band. What Mr. Hampton is proposing is already available to the persons he is petitioning on behalf of in the previously FCC authorized FRS, CB, MURS and GMRS services.

Sincerely,

A handwritten signature in black ink that reads "James R. Andrews". The signature is fluid and cursive, with a long horizontal stroke at the end.

James R. Andrews, Ph.D.  
Fellow of the IEEE
